

Show me how

I am small, I'm just a child.
I'm still learning right from wrong
How am I supposed to know?
Won't you take some time for me.

Chorus

Show me how, take me by the hand.
Lead the way, you want me to go
Give me love and understanding
and sometimes, I may need a hug

Show me how to love, Show me how.

Through my eyes you move so fast,
Tell me where is everybody going?
In my world, there's just today.
How can I stop this pain from growing.

To chorus

Words mean nothing
I am watching you.
Please be my example
Show me what to do.
