

HORIZON COLLECTIVE COMMITMENTS

C U L T U R E

We commit to making decisions based on what is best for our students short term and, more importantly, long term.

We commit to building intrinsically motivated citizens and learners; helping them have a desire to do well because it is personally rewarding.

We commit to setting a culture with high expectations in learning and character for every student; fostering a growth mindset in them.

We commit to building a culture of being **RESPECTFUL**, **RESPONSIBLE**, and **RESILIENT**. We consider these to be essential power skills in life. We will help our students see and value the goodness within.

We commit to building a culture of caring, support, and connectedness with our students, teachers, families, and community. We **ALL** take good care of each other.
