

HORIZON COLLECTIVE COMMITMENTS

LEADERSHIP

We commit to having a shared vision with clear expectations and a shared responsibility for the growth and success of our students.

We commit to developing leadership skills in ALL of our students helping them have the desire and ability to lead out in their families, classrooms, communities, and the world. This includes offering Parent Partnership Workshops to partner with our families in meeting the needs of the whole child.

We commit to developing leadership and professionalism schoolwide. We will ensure that staff members have opportunities to grow. We understand that this will help us build a stronger foundation for all.

We commit to ensuring that all voices are heard and valued. We know we are stronger, smarter, and more balanced as a whole.
