We commit to providing instruction that is meaningful, data driven, differentiated, research based, engaging, and focused on supporting and challenging our learners to be successful in the next grade level and beyond.

We commit to collaborating as teams to identify the standards that are essential for success and to ensure that students know what they are learning, why they are learning it, and how they will know when they've achieved their goal.

We commit to upholding high expectations for our students and ourselves by making the best use of our tier 1 and tier 2 time.

We commit to helping our students develop a love for learning.
